

# ACADEMY TRAINING PLAN

Learning Plan	Curriculum	Lesson	Type	Comments
RPA Starter	Introduction to RPA and Automation	What is RPA? What is Automation?	Course	
RPA Starter	Introduction to RPA and Automation	Automation is Driving the Digital Transformation	Course	
RPA Starter	Introduction to RPA and Automation	Automation in Business	Course	
RPA Starter	Introduction to RPA and Automation	The Automation Journey	Course	
RPA Developer Foundation	Get Started with RPA Development	UiPath Platform Overview	Course	
RPA Developer Foundation	Get Started with RPA Development	UiPath First Run	Course	
RPA Developer Foundation	Get Started with RPA Development	Build Your First Automation Process	Course	
RPA Developer Foundation	Get Started with RPA Development	First Process - User Data.xlsx, ProcessUserData.zip	Exercise	
RPA Developer Foundation	Get Started with RPA Development	Glossary of Terms and Abbreviations	Course	
RPA Developer Foundation	A Day in the Life of an RPA Developer	The Automation First Mindset	Course	
RPA Developer Foundation	A Day in the Life of an RPA Developer	About Business Process	Course	
RPA Developer Foundation	A Day in the Life of an RPA Developer	Evaluating Automation Candidates	Course	
RPA Developer Foundation	A Day in the Life of an RPA Developer	The Automation Project Lifecycle	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Variables	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Invoke Workflows and Arguments	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Data Types	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Control Flow Overview	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	The If statements	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Loops	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Switch	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Parallel	Course	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Practice 1 - For Each and If Statement	Exercise	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Practice 2 - Generic Value	Exercise	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Practice 3 - Switch	Exercise	
RPA Developer Foundation	Variables, Arguments, and Control Flow in Studio	Practice 4 - Invoke Workflow File	Exercise	
RPA Developer Foundation	UI Automation with Studio	What is UI Automation?	Course	
RPA Developer Foundation	UI Automation with Studio	How does UI Automation Work?	Course	
RPA Developer Foundation	UI Automation with Studio	Introduction to Classic and Modern Design Experiences	Course	
RPA Developer Foundation	UI Automation with Studio	Enabling the Modern Design Experience	Course	
RPA Developer Foundation	UI Automation with Studio	Practice - Modern Design Experience	Exercise	
RPA Developer Foundation	UI Automation with Studio	Introduction to the Modern Design Experience	Course	
RPA Developer Foundation	UI Automation with Studio	Recording UI Interactions	Course	
RPA Developer Foundation	UI Automation with Studio	Practice - Generate a Strong Password - Studio Project	Exercise	
RPA Developer Foundation	UI Automation with Studio	Advanced UI Automation	Course	
RPA Developer Foundation	UI Automation with Studio	Troubleshooting and Debugging in UI Automation	Course	
RPA Developer Foundation	UI Automation with Studio	Practice - RPA Challenge with Double UI App	Exercise	
RPA Developer Foundation	UI Automation with Studio	Classic Design - Input Methods and Activities	Course	
RPA Developer Foundation	UI Automation with Studio	Output Methods and Activities	Course	
RPA Developer Foundation	UI Automation with Studio	UI Element Synchronisation	Course	
RPA Developer Foundation	UI Automation with Studio	The AI Computer Vision	Course	
RPA Developer Foundation	UI Automation with Studio	Practice 1 - Input Actions and Methods	Exercise	
RPA Developer Foundation	UI Automation with Studio	Practice 2 - Output Actions and Methods	Exercise	
RPA Developer Foundation	UI Automation with Studio	Practice 3 - Data Scraping	Exercise	
RPA Developer Foundation	DataTables and Excel Automation with Studio	What are DataTables?	Course	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Working with DataTables	Course	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Workbooks and Common Activities	Course	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Excel Applications Scope and Specific Activities	Course	
RPA Developer Foundation	DataTables and Excel Automation with Studio	The Select Method	Course	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Practice 1 - Calculating Sums - Sample Columns.xlsx	Exercise	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Practice 2 - Calculating Loss - Invoices.xlsx, Clients.csv	Exercise	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Practice 3 - Calculating Percentage of Expenses	Exercise	
RPA Developer Foundation	DataTables and Excel Automation with Studio	Practice 4 - Invoke Workflow File	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	What is Data Manipulation?	Course	
RPA Developer Foundation	Data Manipulation in Studio	Strings	Course	
RPA Developer Foundation	Data Manipulation in Studio	Lists	Course	
RPA Developer Foundation	Data Manipulation in Studio	Dictionaries	Course	
RPA Developer Foundation	Data Manipulation in Studio	The RegEx Builder	Course	
RPA Developer Foundation	Data Manipulation in Studio	DateTime	Course	
RPA Developer Foundation	Data Manipulation in Studio	Practice 1 - Lists	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 2 - Lists and DateTimes	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 3 - Dictionaries and Integers	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 4 - Dictionaries and Doubles	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 5 - Input Validation	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 6 - Replacing Placeholders	Exercise	

RPA Developer Foundation	Data Manipulation in Studio	Practice 7 - Extract Email Address	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 8 - Extract Email Address with RegEx	Exercise	
RPA Developer Foundation	Data Manipulation in Studio	Practice 8 - Calculate a DateTime Difference	Exercise	
RPA Developer Foundation	Selectors in Studio	Introducing Selectors	Course	
RPA Developer Foundation	Selectors in Studio	The UI Explorer	Course	
RPA Developer Foundation	Selectors in Studio	Types of Selectors	Course	
RPA Developer Foundation	Selectors in Studio	Fine-Tuning	Course	
RPA Developer Foundation	Selectors in Studio	Managing Difficult Situations	Course	
RPA Developer Foundation	Selectors in Studio	Practice 1 - Get and Sort Data	Exercise	
RPA Developer Foundation	Selectors in Studio	Practice 2 - Set Data	Exercise	
RPA Developer Foundation	Selectors in Studio	Practice 3 - Highlight WFT Type Items	Exercise	
RPA Developer Foundation	Project Organization in Studio	Choosing the Workflow Layout	Course	
RPA Developer Foundation	Project Organization in Studio	Organising Projects in Workflow	Course	
RPA Developer Foundation	Project Organization in Studio	Libraries	Course	
RPA Developer Foundation	Project Organization in Studio	Project Templates	Course	
RPA Developer Foundation	Project Organization in Studio	Excpetion Handling	Course	
RPA Developer Foundation	Project Organization in Studio	Version Control Systems Integration	Course	
RPA Developer Foundation	Project Organization in Studio	Best Practices	Course	
RPA Developer Foundation	Project Organization in Studio	Practice 1 - Sequences, Flowchart or State Machine	Exercise	
RPA Developer Foundation	Project Organization in Studio	Practice 2 - Fix My Workflow	Exercise	
RPA Developer Foundation	Project Organization in Studio	Practice 3 - Libraries	Exercise	
RPA Developer Foundation	Debugging in Studio	Debugging Features Overview	Course	
RPA Developer Foundation	Debugging in Studio	Basic Debugging Features	Course	
RPA Developer Foundation	Debugging in Studio	Advanced Debugging Features	Course	
RPA Developer Foundation	Debugging in Studio	Practice - Fix My Workflow	Course	
RPA Developer Foundation	Error and Exception Handling in Studio	System and Business Exceptions	Course	
RPA Developer Foundation	Error and Exception Handling in Studio	Try Catch, Throw and Rethrow	Course	
RPA Developer Foundation	Error and Exception Handling in Studio	Retry Scope	Course	
RPA Developer Foundation	Error and Exception Handling in Studio	The ContinueOnError Property	Course	
RPA Developer Foundation	Error and Exception Handling in Studio	The Global Exception Handler	Course	
RPA Developer Foundation	Error and Exception Handling in Studio	Practice 1 - Automation of Spreadsheet Calculation	Exercise	
RPA Developer Foundation	Error and Exception Handling in Studio	Practice 2 - Using the Global Exception Handler	Exercise	
RPA Developer Foundation	Introduction to Logging in Studio	Logging Overview	Course	
RPA Developer Foundation	Introduction to Logging in Studio	Accessing and Reading Robot Excecuton Logs	Course	
RPA Developer Foundation	Introduction to Logging in Studio	Logging Best Practices	Course	
RPA Developer Foundation	Introduction to Logging in Studio	Practice - Add Log Messages	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Introducing UiPath Orchestrator	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Orchestrator Entities, Tenants and Folders	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Robot Provisioning and License Distribution	Exercise	
RPA Developer Foundation	Orchestrator for RPA Developers	Unattended Automation With Folders	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Orchestrator Resources in Studio	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Libraries and Templates in Orchestrator	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Storage Buckets	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Queues	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Intermission - Transaction Processing Models	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Triggers and SLA's	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Monitoring and Alerts	Course	
RPA Developer Foundation	Orchestrator for RPA Developers	Practice 1 - Connect an Unattended Robot to Orchestrator	Exercise	
RPA Developer Foundation	Orchestrator for RPA Developers	Practice 2 - Orchestrator Resources	Exercise	
RPA Developer Foundation	Orchestrator for RPA Developers	Practice 3 - Queues	Exercise	
RPA Developer Foundation	Orchestrator for RPA Developers	Practice 4 - Triggers	Exercise	
RPA Developer Foundation	Email Automation in Studio	Email Automation Overview	Course	
RPA Developer Foundation	Email Automation in Studio	Retrieving Emails	Course	
RPA Developer Foundation	Email Automation in Studio	Filtering Emails	Course	
RPA Developer Foundation	Email Automation in Studio	Sending Emails	Course	
RPA Developer Foundation	Email Automation in Studio	Practice 1 - Organise Emails	Exercise	
RPA Developer Foundation	Email Automation in Studio	Practice 2 - Send Emails	Exercise	
RPA Developer Foundation	PDF Automation in Studio	Extracting Data from PDF	Course	
RPA Developer Foundation	PDF Automation in Studio	Extracting A Single Piece of Data from PDF	Course	
RPA Developer Foundation	PDF Automation in Studio	Extracting a Data Using Anchor Base	Course	
RPA Developer Foundation	PDF Automation in Studio	Practice 1 - Extract Values Using Anchor Base	Exercise	
RPA Developer Foundation	PDF Automation in Studio	Practice 2 - Extract Values Using PDF Activties	Exercise	
RPA Developer Foundation	Version Control System Integrations in Studio	Introduction to Version Control Systems	Course	
RPA Developer Foundation	Version Control System Integrations in Studio	A Closer Look at Git	Course	
RPA Developer Foundation	Version Control System Integrations in Studio	Adding a Project to GitHub	Course	
RPA Developer Foundation	Version Control System Integrations in Studio	Cloning a Repository, Committing and Pushing to Github	Course	
RPA Developer Foundation	Version Control System Integrations in Studio	Using Show Changes and Solving Conflicts	Course	
RPA Developer Foundation	Version Control System Integrations in Studio	Creating and Managing Branches	Course	
RPA Developer Foundation	RPA Testing with Studio Pro	Introduction to RPA Testing	Course	
RPA Developer Foundation	RPA Testing with Studio Pro	Basic and Data-Driven RPA Testcase	Course	
RPA Developer Foundation	RPA Testing with Studio Pro	Mock Testing	Course	
RPA Developer Foundation	RPA Testing with Studio Pro	RPA Testing Best Practices	Course	

RPA Developer Foundation	RPA Testing with Studio Pro	Practice - RPA Testing	Exercise	
RPA Developer Advanced	State Machines in Studio	Workflow Design - Overview	Course	
RPA Developer Advanced	State Machines in Studio	Understanding State Machine	Course	
RPA Developer Advanced	State Machines in Studio	Creating a Process using the State Machine Workflow in Studio	Course	
RPA Developer Advanced	State Machines in Studio	Practice Creating a Vending Machine	Exercise	
RPA Developer Advanced	Activity Project Settings in Studio	Using Activity Project Settings	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	Recap: Transactions and Types of Processes	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	The Dispatcher and Performer (Producer and Consumer) Model	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	Introducing the ReFramework Template	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	Overview of Automation Project and Main Workflow	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	The initialization State and Configuration File	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	The Get Transaction Data State	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	The Process Transaction and End Process State	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	Execution and Logging	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	System and Business Exception Handling	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	Concurrent Queue Consumption	Course	
RPA Developer Advanced	Introduction to Robotic Enterprise Framework	Exercise - The ReFramework Elements	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	The ReFramework without Queues Items Development Checklist	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Whiteboarding the Automation Project Workflows	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	The Project Configuration	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Changing the TransactionItem Data Type	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Applications Used: Open/Close/Kill	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Get Transaction Data	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Process Transaction	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Running the Project	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Building an Execution Report	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	Testing a ReFrame Project without Queues using Testing Suite	Course	
RPA Developer Advanced	Build a ReFramework Project in Tabular Data	ReFramework with Different Data Types and for Linear Processes	Course	
RPA Developer Advanced	Practice with ReFramework	Calculate Client Security Hash - Process Design Document	Course	
RPA Developer Advanced	Practice with ReFramework	Calculate Client Security Hash - Exercise	Exercise	
RPA Developer Advanced	Practice with ReFramework	Generate Yearly Report - Process Design Document	Course	
RPA Developer Advanced	Practice with ReFramework	Generate Yearly Report - Exercise	Exercise	
RPA Developer Advanced	Attended Automation Features in Studio	What is Attended Automation?	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Block User Input	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Send Window Messages and Simulate	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Picture in Picture	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Practice 1 - Enable the Simulate Input Method	Exercise	
RPA Developer Advanced	Attended Automation Features in Studio	Practice 2 - Run Workflows in Different Sessions	Exercise	
RPA Developer Advanced	Attended Automation Features in Studio	Background Processes and Triggers	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Background Processes and Use Foreground	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Triggers	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Invoke Processes	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Run Parallel Process	Course	
RPA Developer Advanced	Attended Automation Features in Studio	Practise 3: Design and Develop an Event-Driven Process	Exercise	
RPA Developer Advanced	Invoke Method and Invoke Code in Studio	Invoke Method	Course	
RPA Developer Advanced	Invoke Method and Invoke Code in Studio	Invoke Code	Course	
RPA Developer Advanced	Invoke Method and Invoke Code in Studio	Practice - Invoke Code	Exercise	
RPA Developer Advanced	Workflow Analyser in Studio	Using the Workflow Analyser	Course
